

The National Space Centre

The National Space Centre is not just a visitor attraction and facility for educational group visits, it is also a venue with a difference for meetings and private events.

Since opening in 2001 the National Space Centre has welcomed over 95,000 corporate visitors through private events including seminars, car launches, fashion shows, black tie dinners and charity events.

At highly competitive rates, clients can dine underneath rockets, walk amongst the stars or simply sit back and be taken to a distant planet or solar system.

As well as the Space Centre itself, we can also offer the Challenger Learning Centre for a team-building event with a difference or just for a bit of fun. Participants take on roles such as medics, probe builders, Martian geologists and mission controllers in this simulated Space Mission.

All catering is carried out in house from locally sourced, seasonal produce. Gala dinners, hot fork buffets, finger buffets, canapés and many more have received great acclaim in the past year.

For a truly unique experience, guests can hire the whole attraction for the evening and take full advantage of the interactive exhibits, see a show in the Space Theatre, enjoy a delicious buffet or sit-down dinner before dancing the night away under the giant rockets. The galleries make for a memorable party, whatever the occasion.

The National Space Centre

"The feedback I have received has all been complimentary with regard to the Space Theatre show, the food, the surroundings and the quality of service"

HSBC Bank

"Our guests really enjoyed the evening with particular comments coming back about the venue. There was just so much to see and do. We were thrilled to be celebrating our 10 years in business in such a new and exciting corporate events centre"

Pauline Edwards Transport

"We thought the food presented on both days was excellent and well presented. All of the Space Centre staff that I spoke to on the day were extremely willing and helpful"

National Grid

"It was a splendid evening – you did Leicester proud"

Glenfield Hospital

"Pre event support was exemplar. Staff on the day were extremely helpful and diligent in their efforts to ensure that we all had what we required. Technical support was always very accommodating and tolerant. The Space Centre staff are the most accommodating I have worked with."

Open University

"Just a note to say thank you, to you and all at your end, for making this a great day. I am told that it proved to be one of the best venues that we've used on the tour - both from the general appearance and layout of the venue to the help and support given. Can't thank you all enough. "
